Product description

This high-quality wheel set for the Porsche 911 model 992, specially designed for the GT3 and GT3RS variants, is ideal for winter use. The set consists of two 20-inch rims measuring 9J x 20 ET43 and two 21-inch rims measuring 11.5J x 21 ET46. These rims are equipped with a central locking system that allows for quick and secure mounting and is particularly popular in racing circles.

The rims have an elegant black satin finish that is not only visually appealing but also robust enough to withstand harsh winter conditions. They are specially designed to enhance the performance and aesthetics of your Porsche 911 992 GT3 or GT3RS while providing optimum grip and safety at low temperatures.

The wheel set has the OEM number 9GT601025C JE1KPL and meets the high quality standards of Porsche original parts. This guarantees a perfect fit and functionality. New and unused, this item comes without damage and is an excellent choice for optimising the driving performance of your vehicle during the winter months.
