Available:	availability on request
Price:	7.675,50 € (nett:6.450,00 €)

Product description

This set of winter wheels for the Porsche 911 model 992.2 (facelift), specifically for the GT3 and GT3RS versions from model year 2025 onwards, offers an outstanding combination of design and functionality for the cold season. The centre-lock rims in sizes 9J x 20 ET43 for the front axle and 11.5J x 21 ET46 for the rear axle are precisely tailored to the specific requirements of these high-performance vehicles. The black satin finish of the rims not only ensures an attractive appearance, but also offers high resistance to the demanding conditions of winter roads.

Equipped with high-quality Michelin Pilot Alpin 5 winter tyres, 245/35 R20 for the front axle and 305/30 R21 for the rear axle, these wheels guarantee excellent traction and safety on snow and ice. These tyres have been specially selected to maximise the vehicle's driving dynamics and safety in cold weather conditions.

The OEM number 992044631CA confirms the authenticity of this genuine Porsche part. As a new product, this item is unused, undamaged and in perfect condition, making it an ideal choice for Porsche owners who value quality and performance.

This set of winter wheels is an excellent choice for drivers of the Porsche 911 992.2 GT3/GT3RS who do not want to compromise on driving pleasure and safety, even in winter.

Technical specifications

Front rims:	Article number: 9GT601025B JE1
	Quantity: 2
	Rim width: 9J
	Rim diameter (inch): 20"
	Offset (ET): 43
Rear rims:	Article number: 9GT601025C JE1
