(nett:6.968,24 €)

Product description

This set of summer wheels in RS Spyder design is specially designed for the Porsche 911 model 992.1 and offers an excellent combination of style and performance. The set consists of two 20-inch rims measuring 8.5J x 20 ET53 and two 21-inch rims measuring 11.5J x 21 ET67. These dimensions ensure an optimal fit and excellent driving characteristics. The rims feature an attractive platinum satin finish, which is not only aesthetically pleasing but also offers high resistance to environmental influences. The wheel set is completed by high-quality Goodyear Eagle F1 Asymmetric 3 summer tyres in sizes 245/35 R20 for the front axle and 305/30 R21 for the rear axle. These tyres are known for their excellent wet and dry grip and improved fuel efficiency.

In addition, the wheels are equipped with TPMS (tyre pressure monitoring system) sensors that constantly monitor the pressure in each tyre, ensuring increased safety and optimised driving dynamics.

The OEM numbers for this wheel set are 992044661J and 992044660J, confirming their authenticity as genuine Porsche parts. These wheels are new, unused and undamaged, making them an excellent choice for any Porsche 911 owner who values quality and originality.

With this wheel set, you are not only purchasing high-quality components, but also the peace of mind that comes with using genuine Porsche original parts that have been specially developed for your vehicle model. Ideal for anyone who wants to upgrade their vehicle both visually and in terms of performance.
