Discount: 40%

Available: **availability on request**

**Price:** **5.237,18 €**  
**(nett:4.400,99 €)**

## Product description

This set of RS Spyder summer wheels for the Porsche 911 model 992.1 (pre-facelift, built between 2019 and 2024) combines aesthetics with outstanding performance. The RS Spyder design rims measure 8.5J x 20 ET53 for the front axle and 11.5J x 21 ET67 for the rear axle, finished in an attractive platinum silk matt finish that exudes both elegance and sportiness.

The wheels are fitted with brand new Goodyear summer tyres, dimensions 245/35 R20 on the front axle and 305/30 R21 on the rear axle, offering optimum grip and excellent handling characteristics in warm weather conditions. This tyre combination ensures a perfect balance between comfort and performance.

In addition, the wheels are equipped with TPMS (tyre pressure monitoring system) sensors that constantly monitor the pressure in the tyres, ensuring increased safety and efficiency.

The OEM numbers for these wheels are 992044661J and 992044660J, confirming their authenticity as genuine Porsche parts. Although marked as used, the rims are in mint condition with very low mileage and possibly minimal signs of use or storage. The tyres are brand new (0 km mileage), making them an excellent choice for Porsche owners who do not want to compromise on quality and performance. This wheel set is not only an aesthetic upgrade, but also a functional improvement for your Porsche 911 992.1, which can significantly enhance the driving dynamics and appearance of your vehicle.

## Technical specifications

Front rims:	Article number: 992601025F OB5 Quantity: 2 Rim width: 8,5J Rim diameter (inch): Offset (ET):
