Discount: **45%**

Available: **availability on request**

**Price:** **4.408,06 €**  
**(nett:3.704,25 €)**

### Product description

This set of 21" SportDesign winter wheels for the Porsche Panamera model 971 is an excellent choice for drivers who do not want to compromise on performance and aesthetics, even in the cold season. The combination of high-quality rims and new winter tyres guarantees optimal driving characteristics on winter roads.

The rims in the set measure 9.5 J x 21 ET71 for the front axle and 10.5 J x 21 ET71 for the rear axle, ensuring a perfect fit and excellent driving stability. The Pirelli Sottozero III winter tyres mounted on them, in sizes 275/35 R21 for the front axle and 315/30 R21 for the rear axle, offer excellent grip and traction in winter conditions. These tyres are new and bear the date of manufacture (DOT/year) 2022, which underlines their freshness and performance.

In addition, the wheels are equipped with TPMS sensors that continuously monitor tyre pressure, providing an extra level of safety. The rims themselves are as good as new with very low mileage and may show minimal signs of use or storage.

The OEM number for this wheel set is 971044600E DOT22, which confirms its authenticity and quality as original Porsche parts. This set is ideal for owners of the Porsche Panamera model 971 who do not want to compromise on the usual Porsche performance, even in winter.
