Price:	6.545,60 € (nett:5.500,50 €)

Product description

This set of 21" Turbo winter wheels is specifically designed for the Porsche Cayenne E3/9Y0 II Facelift model from the year 2023 onwards, excluding the Cayenne Coupé variant. The set includes four wheels with dimensions of 9.5J x 21 ET46 for the front and 11.0J x 21 ET58 for the rear, ensuring a perfect fit and balanced aesthetics for your vehicle.

The wheels are equipped with brand new Michelin winter tires, sizes 285/45 R21 for the front and 305/40 R21 for the rear, providing excellent traction and performance in winter conditions. These tires are renowned for their durability and ability to handle snowy and icy roads, enhancing safety and driving comfort during the colder months.

Additionally, the wheels come with Tire Pressure Monitoring System (TPMS) sensors already installed. These sensors are crucial for maintaining proper tire pressure, which is vital for both safety and fuel efficiency.

The wheels are finished in a sophisticated Platinum Matte, adding a touch of elegance to the robust and functional design. This finish not only enhances the visual appeal of the wheels but also provides a protective layer against environmental elements.

The set is categorized under Porsche Original Parts, indicating that these wheels meet the strict quality standards set by Porsche. They are in a used condition but are described as new or like-new with very low mileage and possibly minimal signs of wear or storage marks. The tires are brand new with zero kilometers on them, ensuring that you are receiving a product that is as close to new as possible.

The OEM number for this set is 9Y0044603TROB5, confirming its authenticity and compatibility with the specified Porsche models. This set is an excellent choice for Porsche Cayenne owners looking to equip their vehicle with reliable, stylish, and high-quality winter wheels and tires.
