<b>Price:</b>	<b>9.609,25 €</b> <b>(nett:8.075,00 €)</b>

### Product description

This set of 21" winter wheels for the Porsche Panamera model 976 is specially designed for the Turbo S variant and offers outstanding performance even in winter conditions. The set includes four rims with dimensions 9.5J x 21 ET71 for the front axle and 10.5J x 21 ET71 for the rear axle, which are particularly eye-catching thanks to their Turbonit colour.

The rims are fitted with high-quality Continental Winter Contact TS860 S winter tyres, available in size 275/35 R21 at the front and 315/30 R21 at the rear. This tyre combination not only ensures optimum traction and safety on snow and ice, but also excellent handling characteristics in cold temperatures.

A special feature of this wheel set is the central locking system, which not only ensures quick mounting and removal, but also emphasises the sporty appearance of the vehicle. The item is new, unused and undamaged, making it an ideal choice for vehicle owners who do not want to compromise on quality and performance. The original part number for this set is 976044600Q, which confirms its authenticity and specific fit for the model specified. This winter wheel set is an excellent choice for Porsche Panamera owners who do not want to compromise on sportiness and exclusivity, even in the coldest months of the year.
