Price: **5.355,00 €**
(nett:4.500,00 €)

Product description

No matter where your adventure takes you, the robust roof basket provides additional storage space on every journey. Whether you're heading to the beach, the mountains or on a skiing holiday, the roof basket allows you to easily and flexibly secure your luggage outside the boot. The roof basket was designed and tested at the Weissach Development Centre. The lightweight yet extremely sturdy aluminium frame structure is coated with a matt black powder coating and features the "PORSCHE" logo on the front. The base of the roof basket consists of five longitudinal profiles. The load can be individually secured to these profiles – for example, with the two lashing straps and four strap holders provided.

The roof basket is very easy to install. It can be securely attached to the crossbars of the base carrier roof transport system in just a few simple steps. A wide range of Porsche Tequipment and lifestyle accessories are available for the roof basket. These include: a petrol and water canister, canister holders, rescue boards and board holders, a folding spade, a water-repellent outdoor travel bag, belt holders and additional lashing straps.

Details:

- Roof basket
- Material: aluminium, powder-coated, and plastic, painted
- Colour: black (matt)
- Dimensions: 1,500 mm x 1,120 mm x 135 mm
- 4 belt holders and 2 lashing straps

Note: When securing luggage, country-specific road traffic regulations must be observed. Please note the approved roof load of your vehicle.
