### Product description

This LED headlight (right) is specially designed for the Porsche Cayenne model 9Y0 (from model year 2018) and offers an excellent lighting solution that improves both the safety and the appearance of the vehicle. The headlight bears the OEM numbers 9Y0941040T, 9Y0941040Q, 9Y0941040M, 9Y0941040J and 9Y0941040F, which confirms its authenticity and compatibility with certain vehicle models.

This product is used, but is in very good condition and undamaged. It is an original Porsche part, which guarantees high quality and durability. The LED technology ensures improved visibility at night and in poor weather conditions, which significantly increases driving safety. It can be installed directly in place of the existing headlamp, which simplifies replacement.

The headlamp integrates seamlessly into the design of the Porsche Cayenne and supports its luxurious and sporty appearance. The use of original parts such as this headlight ensures that the vehicle warranty is retained and that the fit and functionality are optimised. Ideal for owners who value authenticity and efficiency and want to keep their vehicle in top condition.
