Price:	3.005,59 € (nett:2.525,71 €)

Product description

This high-quality LED matrix headlight for the Porsche Taycan is an essential replacement part for the left-hand side of the vehicle. The headlamp integrates the advanced Porsche Dynamic Light System (PDLS) technology, which ensures optimum illumination of the road by adapting to the driving conditions. This improves safety at night and in poor weather conditions by dynamically adjusting the light distribution.

The OEM numbers for this headlight are 9JA941751C, 9JA941751B and 9JA941751A, which confirms its authenticity and compatibility with certain Porsche Taycan models. This is a used part, but it is in very good condition and shows no signs of damage. As an original Porsche part, it not only guarantees a perfect fit, but also the usual high quality and durability that you can expect from Porsche spare parts.

This LED matrix headlight is an excellent choice to maintain or restore the functionality and aesthetic appearance of your Porsche Taycan.
