## Product description

This high-quality water pump with seal is specially designed for Porsche Cayenne diesel models and ensures that your vehicle runs with optimum cooling performance. The water pump is compatible with Porsche Cayenne models 957 Diesel with an output of 176 kW (239 hp) from 2007 to 2010, as well as the Cayenne 958 Diesel, which is available in both 176 kW (239 hp) and 245 kW (333 hp) power variants from 2010 onwards.

The product has the original spare part numbers 95810603321, 95810603320, 95510603310 and 95510603311, which confirms its authenticity and compatibility with the specified vehicle models. As an original Porsche part, this water pump guarantees a perfect fit and performance that meets Porsche's strict quality standards. The water pump is new and unused, ensuring a long service life and reliability. Installing this part can help improve the efficiency of your vehicle's cooling system, which in turn has a positive effect on overall performance and engine life.

This replacement part is an excellent choice for Porsche Cayenne owners who value quality and performance. It is an essential component that has been specifically designed for the specific requirements of your Porsche Cayenne to ensure optimum function and driving experience.
